Atlas of Woody Plants in China | Request PDF

"Atlas of Woody Plants in China: Distribution and Climate" documents the spatially-explicit county-level distribution of all 11,405 woody plants in China, together with life form information for most species. It also provides climate information for each species, with the county-level average and range of 12 climatic indices and of vegetation net primary productivity. It is the first and largest comprehensive atlas in the world for the distribution of China's plants and was compiled on ...
